

EVOLUTION

PERFORMANCE UNDER PRESSURE

EVOLUTION

DESERT FOG FAN

The Evolution is designed for long and narrow applications and is ideal for low ceiling height restrictions. It can be installed as low as 7 feet off the ground and can mount to a wall, a pole, or the ceiling. The Evolution is adjustable both vertically and horizontally after installation. The unit can be used with a single nozzle, a 3 nozzle cluster or a 5 nozzle cluster allowing flow rates from 5lbs/hr to 62 lbs/hr depending on nozzle size and quantity. The unique 'cannon' shaped housing with internal guide fins provides increased air velocity and directional control of the air stream.

APPLICATIONS

Greenhouses
Germination Chambers
Printing
Paper products
Wood working
Electronics
Textiles
Clean rooms
Hospitals

SPECIFICATIONS

low operating cost and noise level
50' throw
covers up to 1000 square feet
available in 115V/230V and 50Hz/60Hz
.23 amps at 115V
250cfm
includes a 10' length of 1/8" flexible feed
line and terminates with a 1/8" FNPT fitting.
